Here you will find relevant information about all the sports and disciplines that will be a part of the activities calendar of the XIX Pan American Games. You will also find the competition schedule, the format, the competition and qualification system, and the information about the delegations' training, among other aspects that are relevant for your work. This guide contains all the necessary information for athletes to concentrate in competing in these Santiago 2023 Games.

For our country, the importance and legacy of Santiago 2023 is immeasurable. Therefore, one of the main drives of my management will be to work with a goal of efficiency and inclusion, that unites the entire continent. 1. INTRODUCTION

1.1 Welcome to Santiago 2023

The Pan American and Parapan American games are a sports festival, with a world-class organization that allows athletes from the Americas to reach excellence. The celebration will unfold Santiago de Chile's natural beauty, dynamism, and multicultural energy.

1.2 Santiago as a city

Santiago, the capital city of Chile, was founded 482 years ago, on February 12th, 1541. It is located in the central part of the country; its landscape is complemented in the background by the Andes Mountain range. With Mediterranean weather, it rains only in winter, and at 570 meters (1870 ft) above sea level, the city offers the ideal conditions for high-performance athletes.

By 2023, the Santiago Metro will have a layout of 149 kilometers (93 mi) in length, with 143 stations that will go through 28 districts. It will be the second largest subway network in Latin America, and it will connect the Pan American Village (Cerrillos station) with the Estadio Nacional in just 12 minutes. Every official venue in Santiago connects to a subway station or is a short bus ride away.

With a population of 6.1 million, Santiago is the largest city in Chile and the sixth in South America.

The currency that we use in Chile is the Chilean peso (CLP). You can also use US American dollars (USD) and euros (EUR).

Spanish is the de facto and administrative language of Chile. A 9.9% of the population speaks and understands the languages of the indigenous people, including Mapudungun is spoken by around a hundred thousand to two hundred thousand people, Aymara by about twenty thousand, Quechua by around eight thousand people and Rapanui by around three thousand and three hundred people.

1.3 The city as the host of large sports events

Chile has hosted several sports events and international sports meetings over the past few years. The Dakar Rally, during the 2009 and 2015 editions, along with the 2014 South American Games, are some of the examples that show that the country is ready to host world-class events. This is how the country makes its infrastructure and security available.

Hosting the XIX Pan American Games and the VII Parapan American Games in 2023 is of great importance for a city and a country that seeks to celebrate the sports spirit in the Americas, and that aims to leave a legacy of social transformation that promotes an active lifestyle and inspires the society and future generations. In Santiago, we are getting ready to welcome 6,916 Pan American athletes that come from 41 countries, who will compete in 39 sports and 60 disciplines. On the other hand, the Parapan American Games expect the visit from 1,927 athletes from 33 countries, in 17 sports and 18 disciplines.

As mentioned above, Chile was part of the official tour of the Dakar Rally in seven editions, between 2009 and 2015. On the occasion, more than three thousand vehicles competed in the national territory.

Santiago, together with five sub-venues, organized the 2014 South American Games. In this competition, 4,300 athletes, together with 3,000 volunteers and 400 thousand spectators, participated.

In 2015 the U-17 football World Cup was held in eight cities nationwide. Twenty-four delegations participated and traveled 63,500 kilometers (39,457 miles) throughout Chile. Another football event of continental relevance was the organization of the 2015 Copa América, also developed in eight cities with over 650 thousand spectators, more than 3,600 media professionals, and over 24 thousand accreditations were considered.

In 2017, Santiago was the location of the South American Youth Games (organized by ODESUR). This event gathered 1,200 athletes from 14 countries, who performed in 21 different disciplines in 18 venues within the city.

Our country has experience hosting large sports events. The World Rugby Under 20 Championship (2019), the Water Ski World Cup (2013), the Polo World Cup (2015), Junior Field Hockey World Cup (2016), the Roller Hockey World Cup (2016), the Bolivarian Beach Games (2016), the Pro Tour Table Tennis (2016), and the South American Volleyball Championship (2017), highlight the enthusiasm Chile has put into the organization and execution of sports events of international relevance.

1.4 Santiago 2023

Chile will be the host of the Parapan American Games for the first time in its history.

1.5 Fiu, the Official Mascot

Fiu is a Seven-colored tanager bird and was chosen to represent Chile at the Pan American and Parapan American games. *Fiu* is the sound of its singing. It lives in the wetlands of Chile throughout its territory. Even though it's a small bird, it always gives its biggest effort like all athletes who look for new challenges every day. Its seven colors mean strength, perseverance, respect, determination, honesty, fellowship, and passion.

Fiu's colors, in addition to the values mentioned above, represent the diversity of human beings and species: all races, languages, and beliefs from everyone who will participate at Santiago 2023.

Almost 50 thousand people gave their preference to choose the Official Mascot of the Games, an impressive record because it surpassed the participation at Guadalajara 2011, Toronto 2015 and Lima 2019.

At first, we received several interesting proposals, but we made a pre-selection of five mascots to vote for: Fiu, Pewü, Chitama, Juanchi, and Santi. Every single one had great stories behind them, which were available to all citizens to vote during August of 2021 on the website www.santiago2023.org.
