Each audience – athletes, team officials and Technical Officials – also has their own dedicated section within the guide that includes the information that is relevant to them.

The guide also includes details of the relevant venue, medical, anti-doping, training and competition related services, as well as the key policies and procedures that will be in place during the Games for each client group.

We hope that this guide helps with your planning in the weeks remaining before the European Games. Hard copies of this Games-time Guide will be provided to each client group upon arrival in Baku.

We look forward to welcoming you to Baku for 17 days of competition that puts sport first and sets a tradition for the European Games that follow.

Selection and appointment of Judges

Each NOC represented in the Gymnastics competitions at Baku 2015 was given the opportunity to have an International Technical Official judging at the European Games. Where in the event an NOC could not provide a qualified brevet judge, that place was redrawn and reallocated to the reserve judge from independent country nominated by UEG.

Competition format

Qualification

All participants must take part in the qualification stage in order to achieve a place in the finals. The qualification stage is composed of a first routine with special requirements and a second voluntary routine, as per the valid Trampoline FIG Code of Points § 1.2.1.

The starting order for the qualification stage has been decided by a draw set out in Competition flow section on page 29.

Final

The top six Individuals/synchronised pairs from the qualification stage will perform only one voluntary routine of 10 different skills without limitations. A maximum of one individual / synchronised pair per NOC is allowed in the finals.

Competition rules

The Trampoline Gymnastics competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- International Federation of Gymnastics (FIG) Statutes (Edition 2015)
- European Union of Gymnastics (UEG) Statutes (Edition 2013)
- FIG Technical Regulations (Version 2015)
- UEG Technical Regulations (Edition 2014)
- FIG Code of Points for Trampoline Gymnastics (2013-2016), Guide to Judging, Appendices to the Code of Points (December 2012) and relevant Newsletters
- FIG General Judges' Rules (Revised on 29.05.2013)
- FIG Specific Judges' Rules (Revised on 13.02.2013)
- UEG Medical Guidelines (Edition 2014)

- FIG License Rules (last update on November 18, 2014)
- UEG Media Rules (2014)
- UEG Rules for Advertising and Publicity (Edition August 2009)
- European Games Rules on Advertising, Demonstrations and Propaganda

If there are any new editions, revisions or any other updates of the above mentioned rules by the time of the start of the Games, the most recent versions shall be applied.

Note: The EOC corresponding rules will prevail when necessary.

Judges and Scoring

Swiss Timing LTD is contracted to deliver the timing and scoring for Trampoline Gymnastics competitions (as for other Gymnastics disciplines) during the Games.

One judge is nominated by each National Olympic Committee (NOC). The judges must be holders of the FIG judging Brevet I, II or III. If a NOC does not have any judges with Brevet I, II or III, and if the NOC does not have a judge at this level, then a Brevet Judge Category IV may be nominated.

There will be a total of 27 officials, including seven members of the UEG Trampoline Gymnastics Technical Committee (TC's) and 20 International Technical Officials (ITOs).

For each stage of individual competition there will be two judging panels, each with one Chair of Judges Panel, two Difficulty Judges, five Execution Judges, one Time of Flight Judge and one Reserve Judge.

For each stage of synchronised competition there will be two judging panels, each with one Chair of Judges Panel, two Difficulty Judges, four Execution Judges, one Assistant Chair of Judges, Synchronised Judge and one Reserve Judge.

The UEG Trampoline Gymnastics Technical Committee will nominate/draw the Chair of Judges Panels and all other judges' positions in the panel at the Judges' Meeting.

Execution (E)-score

- **Individual:** The median deduction of the five execution judges is taken as the deduction per element, then, the sum of the median deduction (including median of landing and median of additional deductions) is subtracted from the maximum mark and this mark is then tripled.
- **Synchronised:** The median deductions of the four execution judges is taken as the deduction per element, then, the sum of the median deductions (including median of landing and median of additional deductions) is subtracted from the maximum mark and doubled.
- The deductions from the execution judges should be collected and the E-score calculated by the scoring system.
- If any of the Execution Judges fail to enter all deductions, the average of the other deductions per element of other judges will be taken for the missing deduction(s).

Difficulty (D)-score

Difficulty of each element is calculated on the basis of the amount of twist and somersault rotation. The Difficulty judges calculate and deliver the D-score of a routine.

Time of Flight (T)-score

The total time of flight in 1/1000 of seconds is considered as the T-score.

The evaluation of the T-score should be done electronically. One judge operates the Time Measurement Device (TMD).

Synchronisation (S)-score

The deductions for lack of synchronisation are subtracted from the maximum mark and this mark is then doubled.

The evaluation of the S-score should be done electronically. One judge is operating the TMD.

TMD breakdown

- If a breakdown of the electronic system occurs, the time is determined through an analysis of the official video.

Penalty

- Penalties are decided by the Chair of the Judges Panel who informs the Chief Recorder.

Total score for a routine is calculated as follows:

Individual	E-score + D-score + T-score – Penalty
Synchronised	E-score + D-score + S-score – Penalty

Evaluation

The evaluation of execution, difficulty and synchronisation is done in 1/10 of a point. The time of flight is evaluated in 1/1000 of seconds rounded down to 5/1000. Total scores for a routine are rounded to three decimal places.

In case of a tie, the FIG Tie Break Rules for the Olympic Games shall be applied for Individual competition and the FIG Tie Break for the World Championships shall be applied for Synchronised competition.

Inquiries

Inquiries for the difficulty scores are allowed, provided that they are made verbally immediately after the publication of the score or at the very latest before the end of the exercise of the following gymnast or group; for the last gymnast or group of a rotation, this limit is one minute after the score is shown on the score board. The person designated (Inquiry Officer) will be seated near to the Technical Table and when receiving the verbal inquiry has to note the time of receiving it and starts the procedure.

Only the accredited coaches in the competition area are entitled to submit an inquiry. Late verbal inquiries will be rejected.

A NOC is not allowed to complain against the scores of a gymnast from another NOC. Inquiries for all other scores (Execution, Artistic, Time of flight and Synchro) are not allowed.

The inquiry must be confirmed as soon as possible in writing, within

four minutes at the latest after the verbal inquiry, and requires an agreement of payment of Euro 300 for the first complaint; Euro 500 for the second complaint and Euro 1,000 for the third and any further complaints during the discipline's event at the European Games. Should the inquiry not be confirmed in writing within four minutes, the procedure becomes obsolete.

NOCs shall not pay cash when submitting an enquiry. Invoices will later be sent by the UEG Headquarters to the NOC. If the inquiry is accepted, this sum will not be invoiced by UEG to the NOC. Otherwise, the sum will be invoiced by UEG to the NOC.

Every inquiry must be examined by the Superior Jury and a final decision (which may not be appealed) must be taken at the very latest:

- at the end of the rotation/group for the qualifying competitions, the all-around competitions and the team competition (final)
- before the score of the following gymnast or group is shown for the finals.

Clothing and equipment

Clothing and equipment used by athletes and other participants in the Trampoline Gymnastics competition must comply with the following documents:

- International Federation of Gymnastics (FIG) Statutes (Edition 2015)
- European Union of Gymnastics (UEG) Statutes (Edition 2013)
- FIG Technical Regulations (Version 2015)
- UEG Technical Regulations (Edition 2015)
- FIG Code of Points for Trampoline Gymnastics (2013-2016), Appendix to the Code of Points (December 2012) and relevant Newsletters
- UEG Rules for Advertising and Publicity (Edition August 2009)

European Games Rules on Advertising, Demonstrations and Propaganda

The following Rules for the European Games are based on Rule 50 of the Olympic Charter.

- 1 The European Olympic Committees (EOC) determine the principles

and conditions under which any form of advertising or other publicity may be authorised.

2 No form of advertising or other publicity shall be allowed in and above the stadia, venues and other competition areas which are considered as part of the European Games sites other than that relating to the contractual rights of the marketing partners of the Baku 2015 European Games.

3 No kind of demonstration of political, religious or racial propaganda is permitted in any of the European Games sites, venues or other areas.

4 These rules and any other manuals, guides, guidelines or any other instructions issued by the EOC Executive Committee apply to all persons holding accreditation for the Games and are a pre-condition to the ongoing validity of that accreditation.

Manufacturer's Identification on Equipment and Clothing

Definition: Manufacturer's Identification means the normal display of the name, designation, trademark or logo. The Manufacturer's Identification can only appear once on each piece. **The standard graphic elements recognised by the WFSGI, e.g. adidas' three stripes may also be used within reason and subject to prior written agreement. Other identifications such as 'Goretex' and 'Dryfit' may also be used within reason subject to prior written agreement. The size of these may not be larger than the Manufacturer's Identification.**

All approvals must be requested via brand.approvals@baku2015.com

1 Other than the Manufacturer's Identification, produced according to the size guidelines shown below, **and the standard graphic elements** no form of publicity or propaganda, commercial or otherwise, may appear on persons or on any article of clothing or equipment worn or used by the athletes or other participants in the Baku 2015 European Games. It also includes, but is not limited to, for example, any form of body art, jewellery or contact lenses.

1.1 Equipment: any Manufacturer's Identification used cannot take up more than 10% of the surface area of the equipment visible

during competition up to a maximum size of 60cm². **Exceptions may apply, subject to prior written agreement (brand.approvals@baku2015.com).**

1.2 Headgear and gloves: the maximum size of the Manufacturer's Identification allowed on any form of headgear and on gloves is 6cm². Headgear includes, but is not limited to, hats, helmets, sunglasses and goggles.

1.3 Clothing (e.g. **NOC uniforms**, competition clothing, tracksuits, T-shirts, shorts, sweat tops and sweat pants): the maximum size allowed for any Manufacturer's Identification on clothing is 20cm². There is **one exception**:

Where a one piece body suit is worn in competition, two Manufacturer's Identifications may be included – one above the waist and one below. These Identifications must not be placed next to each other.

1.4 Shoes: the normal distinctive design pattern of the manufacturer may appear on shoes. The manufacturer's name and/or logo may also appear, up to a maximum size of 6cm², either as part of the normal distinctive design pattern or separate to it.

1.5 Technical gear: the maximum size of the Manufacturer's Identification on all technical gear, installations and other apparatus, which are neither worn nor used by athletes or other participants (for example, timing equipment and scoreboards), may be no larger than 1/10th of the height of the piece in question up to a maximum of 10cm high.

1.6 In case of special rules adopted by an International Sports Federation, exceptions to the rules mentioned above may be approved by the EOC Executive Committee.

Any violation of these rules may result in disqualification or withdrawal of the accreditation of the person concerned. The decisions of the EOC Executive Committee regarding this matter shall be final.

NOC Uniforms

The official uniforms of the NOCs may include:

- symbols of the country (name of the country, national flag, emblem, etc.);
- emblem of the NOC;
- logo of the Baku 2015 European Games;
- emblem of the respective National Sport Federations (on competition kit only where permitted by the NOC).

The NOCs are requested to bring a sample of the competition uniform to the first Technical meeting of each sport for final check in order to avoid any problems on the field of play.

NOCs should seek prior written approval from BEGOC for their uniforms before production begins. Pictures featuring the branding should be sent to brand.approvals@baku2015.com for review and official approval.

Athlete Conduct

During the European Games athletes' ongoing accreditation is conditional upon them not:

- Taking any sport equipment and/or national flag onto the podium during a Medal Ceremony;
- Making any kind of demonstration or promote political, religious or racial propaganda in any European Games venue or associated areas during the period of the Games.

Late Athlete Replacement Policy

The deadline for sport entries of participating athletes in the Baku 2015 European Games was 1 May 2015.

However, where urgent medical problems arise, or in other exceptional circumstances that are assessed on a case-by-case basis, the European Olympic Committee (EOC) may permit the permanent replacement of one athlete by another only in the same sport, discipline and event.

During the European Games, it is the policy of the EOC that Personal coach (P) accreditations are not available.

Replacement of an athlete can only occur after consultation with the relevant European Federation (EF) and, when deemed necessary by the EOC, an EOC medical expert.

The replacement of athletes due to medical reasons after 1 May 2015 and up to 2 hours prior to the Sport Technical Meeting, or weight draw as appropriate, is possible providing:

- 1 The replacement athlete is entitled, and qualified, to take part in the European Games as stipulated in the Qualification systems, published in 2014 and regularly updated by the EOC and Baku European Games Operation Committee (BEGOC).
- 2 No doping control issues are pending concerning the replacement athlete.
- 3 The National Olympic Committee (NOC) of the replacement athlete had applied for accreditation for the athlete prior to the application for accreditation deadline on 12 March 2015.

The non-medical replacement of athletes is possible after 1 May 2015 and up to 24 hours prior to the Sport Technical Meeting, or weight draw as appropriate.

NB: The deadlines for medical and non-medical replacements are different. For non-medical replacements, in order to keep changes to a manageable level and to support a sustainable level of resourcing within the BEGOC Sport Entries team, a limit on changes to an NOC's delegation has been put in place.

Each NOC shall be allocated a quota for non-medical replacements based upon the NOC overall number of athletes:

Number of athletes	Quota for non-medical LAR
From 1-10	1
From 11-20	2
From 21-50	5
From 51-100	5
From 101-150	15
From 151-200	20
201+	30

Following confirmation from the BEGOC Sport Entries team that the submission procedure has been correctly completed the application for Late Athlete Replacement shall be approved by:

- Technical Delegate for the relevant sport or discipline, on behalf of the European Federation
- Designated representative of the EOC.

The following additional procedures must also be carried out in order for one athlete to be replaced by another:

- a) The relevant NOC must fill out an Official Athlete Replacement Form for the athlete being replaced and the replacement athlete.
- b) The relevant NOC must add the new athlete's details to the Eligibility Conditions Form which they already hold and, when required, the Sport Entry Form for the replacement athlete.
- c) The accreditation card of the replaced athlete must be withdrawn. Following the athlete replacement, the accreditation card of the replaced athlete shall be cancelled. Procedures relating to the replaced accreditation card will be released in due course.

Once a replacement athlete has been approved, that individual athlete cannot be replaced for non-medical reasons.

All documentation and queries regarding this matter should be sent by email or submitted in person to the BEGOC Sport Entries department, at:

Athletes Village – Sport Entries and Sport Information Centre

Email: entries@baku2015.com

The BEGOC Sport Entries Office will forward all received queries to the BEGOC Accreditation team and to the EOC accordingly.

Effective

- For Non-Medical replacements – from 1 May 2015 until up to 24 hours

- prior to the Sport Technical Meeting, or weight draw as applicable for that event.
- For Medical replacements – from 1 May 2015 until up to 2 hours prior to the Sport Technical Meeting, or weight draw as applicable for that event.

This policy is not applicable to athlete nominative disciplines (Badminton, Women's Boxing, Fencing for individually qualified athletes, Judo, Karate, Taekwondo, Table Tennis for individually qualified athletes). In the case of an injury and for disciplines where the quota place is allocated to an athlete by name the quota place will be reallocated. The common deadline for such reallocations is 1 June 2015.

Waiver

The above-noted policy is subject to further change by the EOC for exceptional circumstances.

Doping control

BEGOC is committed to delivering a world-class doping control programme during the Baku 2015 European Games. Under the authority and direction of the EOC, the BEGOC doping control programme will ensure the integrity of sport is upheld and protect the rights and health of the athletes.

The EOC Medical & Anti-Doping Commission is responsible for determining in advance the distribution and number of doping controls to be carried out throughout the Games period, from 8 June to 28 June 2015, and during this period athletes from all sports will be eligible for urine and blood testing. The EOC has the authority to test athletes for substances and doping methods prohibited by the World Anti-Doping Agency (WADA) anytime and anywhere during in-competition and pre-competition. All sample analysis will be performed in a WADA-accredited laboratory established for the Games.

The selection of the athletes may be targeted at random or based on the athlete's final position in competition.

BEGOC has appointed PWC Global Service Gmbh & Co. KG as the delivery partner for the doping control programme. As delivery partner, it will be responsible for sample collection, analysis and secure chain of custody.

Full details on the doping control programme and procedures at the European Games are available in the Baku 2015 Medical, Anti-doping and Pharmacy Guide, which can be downloaded from the e-Qəzet. Printed copies of the guide will be distributed at the EOC Medical Commission meeting on 11 June. If medical staff arrive later than 11 June, copies of the guide can be collected at the Polyclinic.

Sport information

Sport Information Centre (SIC) and Sport Information Desks (SIDs)

Sport Information Desks (SIDs) are located at all competition venues and at the Sport Information Centre (SIC) in the Athletes Village. The desks will provide a variety of services to NOCs, as follows:

- The dissemination of general sport information.
- The distribution of start lists, draw lists and results.
- Training schedule information for open and pre-allocated training.
- Sport-specific requirements (e.g., forms submitted for several sports in relation to uniform checks or music submission).
- Lost and found (SIDs at competition venues only).

The SIC is located on the second floor of the Administration Centre, next to the NOC Services Centre, in the Athletes Village. The opening hours are as follows:

SIC opening hours	
Period	Hours of operation
Pre-opening (3-7 June 2015)	07:30-20:00
Official opening period (8-28 June 2015)	07:00-22:00
Official closing (29 June-1 July 2015)	07:00-18:00

The SID (located on Level -2 at the National Gymnastics Arena) will open one hour before training commences and will operate until 30 minutes after the final training or competition session ends. All competitors' paperwork and music must be submitted at SID.

Competition Venue Information

Competition: Venue information

Key information

The National Gymnastics Arena (NGA) is in close proximity to the Athletes Village (AVL). During the Baku 2015 European Games the venue will host all five Gymnastics disciplines at once.

The Arena is primarily assigned to host competitions in different Gymnastics disciplines. On a day-to-day basis, gymnasts train at the NGA. The facilities consist of a main concourse and upper stands for spectators, whereas all VIP and functional room hospitality spaces are located between these two levels.

All training (except podium training) for the five Gymnastics disciplines will be held at the Gymnastics Training Venue located behind the National Gymnastics Arena (see the Training section on page 78). Warm-up prior to competition will take place at the warm-up area at the competition venue, located near the competition podium.

Venue access

The point of access for athletes and team officials is on the venue map attached. The athletes' drop-off zone at the National Gymnastics Arena is at the corner of the Gymnastics Training Venue (TGY).

Travelling between the venues

As the Training Venue (TGY) and National Gymnastics Arena are next to each other, travelling will be done by foot.

Athlete load zone

The athlete load zone at the National Gymnastics Arena is at the corner of the Gymnastics Training Venue (TGY).

Competing and non-competing athlete transport

A regular shuttle bus service will operate between the Athletes Village and NGA. Competing athletes should always have preferential access to the bus, either traveling to or from the venue.

Field of play

Events in all five Gymnastics disciplines will be held on the same field of play. Therefore, transition of apparatus will be necessary in the

warm-up area and the field of play between competition sessions. This transition will be supervised by an official Gymnastics apparatus supplier of the UEG. There will be two trampolines manufactured by Eurotramp, the official trampoline apparatus supplier of the UEG, placed in parallel configuration 2m apart, on a Gymnastics podium additional supported by props under the podium for stability. All equipment will be presented in accordance with current FIG Apparatus Norms.

Drawing 1: Field of play

- a cultural performance that will reflect the music, culture and traditions of Baku and Azerbaijan.

The AWC promises to be fun, engaging and interactive for athletes.

Opening and Closing Ceremonies

Opening Ceremony

The Baku 2015 European Games Opening Ceremony will be held at the Olympic Stadium on Friday 12 June 2015 from 21:00 to 23:00. The pre-show will start at 20:15 and the Athletes' Parade will start at 21:30.

All marching athletes will walk from the Athletes Village to the Olympic Stadium. The distance from the Athletes Village exit to the entrance to the Olympic Stadium is approximately 1.7km with an estimated walking time of 40 minutes.

Following EOC decision, only athletes, Chefs de Mission and Deputy Chefs de Mission will be allowed to march in the Athletes' Parade for the Opening Ceremony. BEGOC will check the accreditation and marching passes of athletes on departure from the Athletes Village and when they return.

Team officials and non-marching athletes will be seated in complimentary seating in the Olympic Stadium before the pre-show starts at 20:15. They will enter the Olympic Stadium using the main spectator entrance, using the tickets issued by BEGOC.

The parade will begin with Greece first and with host country Azerbaijan entering the Olympic Stadium last. Following the parade, athletes will be guided to their allocated seating within the seating bowl.

For athletes wishing to depart the ceremony before its completion, there will be a limited window during which to return to the Athletes Village. Athletes will return to the Athletes Village by walking back along the same route they used to enter. All athletes who remain until the end of the ceremony will be accompanied by non-marching athletes and team officials during their return to the Athletes Village.

Closing Ceremony

The Closing Ceremony will be held at the Olympic Stadium on Sunday 28 June 2015. The ceremony will be broadcast live from 21:00. Athletes, team officials, Chefs de Mission and Deputy Chefs de Mission will be allowed to march in the Athletes Parade for the Closing Ceremony. All participants will walk from the Athletes Village to the Olympic Stadium on the same route as for the Opening Ceremony.

Marching athletes and officials

Under no circumstances may participants in the Opening or Closing Ceremonies display any form of publicity or propaganda – commercial, political or otherwise – on any item worn, or in any other manner that is visible on camera. Participants may not use selfie sticks during the parade.

Ticketing

Complimentary sport tickets for athletes and officials

All participating athletes and team officials with an accreditation in the following categories (Aa, Ao, Ac) will be able to obtain two complimentary tickets per each same-sport session per day. Tickets can be used by athletes and team officials or distributed to their friends and family. However, it should be noted that each competition venue has its own dedicated athlete seating area; as a result, if athletes and team officials choose to sit with their friends and family, they will have to make use of the complimentary sport tickets as their accreditation will not allow them to sit in the spectator seating areas.

Different-sport athletes and team officials will also be able to obtain two complimentary tickets per day for one different-sport session held that day.

Complimentary tickets will always be the best available seats. Athletes and team officials will be able to request them at the City Ticket Outlets, the Athletes Village or Venue Ticket Box Offices by displaying accreditation

Post-competition procedures

Leaving the field of play

Gymnasts will go to the Kiss & Cry area after their routine. During the

Coaches should make their way to the anti-doping notification point at the exit of the field of play once the gymnasts have been escorted from the field of play athlete seating area.

Doping control

Athletes selected for doping control will be notified in person and escorted to the Doping Control Station by a doping control chaperone as soon as practically possible after they have finished competing. It is the responsibility of the athlete to remain under continuous observation of the doping control chaperone after notification. For details of the doping control programme at Baku 2015, see medical, anti-doping and pharmacy guides,

Broadcast Mixed Zone and I-Zone

All competition venues will include a Broadcast Mixed Zone for broadcast media, and an I-Zone for written press. Following competition or a Medal Ceremony, all athletes must pass through the Broadcast Mixed Zone as they leave the field of play, but are not obliged to speak. Coaches of team and combat sports who are normally positioned on the field of play may also be asked to pass through the Broadcast Mixed Zone for interview possibilities.

After passing through the Broadcast Mixed Zone, athletes will be free to return to the changing room or go to Medical/Doping unless they are requested for the I-Zone for interviews.

Press wanting to interview someone in the I-Zone would make a request to Press Operations who will escort the athlete from the Broadcast Mixed Zone to the I-Zone.

By default, all gold medallists and all Azerbaijani athletes will be brought to the I-Zone for interviews. Press Attaches, Doping Control Officers and Language Services Team Members will be able to escort athletes into the I-Zone as needed. The I-Zone operations will end about 45 minutes after competition ends.

Results distribution

Competition-related information for all sports, including results reports, will be available on the Games Time Website (baku2015.com). All results information will also be accessible from the Baku 2015 Mobile Application (Android, iOS), which will be available for download in early June.

The delivery of printed results information is available only at competition venues and to time-critical services. Select reports will be available for collection from Sport Information Desks at competition venues and the Sport Information Centre at the Athletes Village. After the completion of all competition, all results outputs will be compiled in PDF format and made available for download from the Games Time Website (baku2015.com).

Medal Ceremonies

All Medal Ceremonies at the Baku 2015 European Games will occur on or around the field of play. Athlete chaperones will be on hand to advise and guide all athletes before, during and after their Medal Ceremony. Announcements will be made in both English and Azerbaijani. Athletes who take part in a Medal Ceremony must adhere to the Baku 2015 European Games rules and regulations that pertain to dress and conduct. All athletes will be required to wear their competition attire throughout their Medal Ceremony. Failure to adhere to this rule may result in the delay or postponement of the Medal Ceremony.

Athlete chaperones will lead athletes to the podium for the Medal Ceremony, and will provide direction with regard to the procedures that the athletes will need to follow. Flags, signs, mobile phones, cameras, electronic devices, bottles, items of sport equipment, political statements and accreditations will not be allowed on the podium. If any athlete is in possession of any of these items, they must be passed to the Medal Ceremonies Manager for the duration of the Ceremony. Similarly, if any items are thrown to an athlete while they are on the field of play and/or the podium, the athlete must pass them to their athlete escort for them to hold during the Medal Ceremony. Failure to comply with these rules may result in disqualification. During the Medal Ceremony, BEGOC plans to also present winning athletes with a bouquet of flowers and a gift, as well as an individual medal presentation box.

After the Medal Ceremony has finished, athletes will be asked to move

to a second location in order to provide the media with additional photography opportunities. This will take no more than one minute. After all the photographs have been taken, athlete escorts will lead the athletes to the Broadcast Mixed Zone. If any athlete has been notified for doping control, he/she will be escorted through the Broadcast Mixed Zone by a Doping Control Officer and will then be chaperoned to the Doping Control Station.

Medals will be awarded in each event of the competition as follows:

- 1st place: A gold gilt medal,
- 2nd place: A silver gilt medal
- 3rd place: A bronze gilt medal

Accreditation

BEGOC issues a European Games Identity and Accreditation Card (EGIAC) to each individual participating in the Baku 2015 European Games. The EGIAC establishes the identity of its user and allows access to European Games venues.

All participants in the European Games must provide a valid and original Identification Document as follows:

- Azerbaijani nationals: National Identification Document
- Nationalities of other countries and stateless citizens: Passport/official travel document

The Pre-Valid Card can be used as a travel and multiple entry and exit document valid from 13 April 2015 until 28 July 2015. Failure to be in possession of the Pre-Valid Cards may prohibit travel and entry to Azerbaijan.

Only once the Pre-Valid Card is validated does it become an official EGIAC.

Security

The Government of the Republic of Azerbaijan is responsible for all aspects of safety and security for the Baku 2015 European Games. The Government Security Authorities (GSA) will ensure that all appropriate and necessary security measures, throughout planning and operational delivery, are implemented to ensure the safe and peaceful celebration of the Baku 2015 European Games.

Athletes and officials travelling on the T-A system are not required to disembark the bus for search and screening requirements on arrival at competition and training venues.

Upon return to the Athletes Village/Canoe Sprint Village, all athletes and officials are subject to 100 per cent search and screening, prior to entering the Village.

Baku, and the history of the city

Baku is the capital and the largest city of Azerbaijan, as well as the largest city on the Caspian Sea and of the Caucasus region. It is located on the southern shore of the Absheron Peninsula, which projects into the Caspian Sea. At 28 metres below sea level Baku is the lowest lying national capital in the world and is home to approximately 2.5 million people. It is twinned with the European cities of Naples in Italy, Sarajevo in Bosnia and Izmir in Turkey.

The city consists of two principal parts: the downtown area and the old Inner City (Icherisheher). Baku is divided into 11 administrative districts (raions) and 48 townships. Among these are townships on islands in the Bay of Baku and the town of Oil Rocks built on stilts in the Caspian Sea, 60 km (37 miles) away from Baku. The Inner City of Baku along with the Palace of the Shirvanshahs and Maiden Tower were inscribed as UNESCO World Heritage Sites in 2000. According to the Lonely Planet's ranking, Baku is also among the world's top ten destinations for urban nightlife.

Baku is one of the few cities in the world to offer visitors the opportunity of enjoying all the attractions that a modern European city has to offer while also embracing traditions and culture that date back to medieval times.

Located at the crossroads of Europe and Asia, the city is one of the world's best-kept secrets with world class sporting and cultural events and modern and ancient attractions presenting no end of things to discover and enjoy.

The port city lies on the eastern side of Azerbaijan and is completely surrounded by the Caspian Sea - the world's largest lake.

Perhaps one of the most unique features of Baku is that it is the first European city in which the sun rises. The picturesque city is built on a high hill and forms an amphitheatre that slopes down to Baku Bay. It is often compared to San Francisco, or Naples in Italy with whom it is twinned along with the other European cities of Sarajevo in Bosnia and Izmir in Turkey.

Baku's reputation as the 'City of Contrasts' is well earned with the city having perfectly combined the beauty and intrigue of its ancient past with its ambition to establish itself as a modern European city featuring award winning architecture, business centre and skyscrapers.

The heart of Baku is the Old City which became a UNESCO heritage site in 2000. It has existed for thousands of years and is firmly established as the pearl of Azerbaijani architecture and culture. Within its walls visitors can travel back in time as they explore a maze of narrow cobbled streets, ancient caravanserais and the courtyards surrounding the 12th century Maiden Tower and the ornate Palace of the Shirvanshahs.

Azerbaijan's President Ilham Aliyev and First Lady and UNESCO and ISESCO Goodwill Ambassador Mehriban Aliyeva have been actively involved in the work which has taken place in recent years to restore and preserve this ancient heart of Azerbaijan.

The modern face of Baku is equally impressive. New developments have redefined the hills that line the picturesque Bay of Baku and even the coastline itself.

The iconic Heydar Aliyev Centre, designed by Zaha Hadid, provides a stunning setting for operas, symphonies, museum exhibits and modern art collections. Visits to The National Art Museum and Museum of Modern Art are also recommended.

Theatre is also a much-loved form of entertainment with Baku presenting a diverse range of theatre houses including a Mime Theatre and Puppet Theatre.

Baku's Flame Towers are the tallest skyscrapers in the city at 190 metres. The spectacular buildings which comprise apartments, a hotel and office blocks takes on another dimension each evening when thousands

of LED lights illuminate the façade of the three towers to display the movement of a fire visible from the farthest points of the city.

Another must see venue is the Heydar Aliyev Arena which has hosted numerous sports events. It will be home to Judo, Sambo and Wrestling during the Baku 2015 European Games. Azerbaijan's pop duo Ell & Nikki were crowned winners of the Eurovision Song Contest in 2011 with their song 'Running Scared'. Their success earned Azerbaijan the right to host the 2012 edition of the competition for the first time.

The event was staged at the magnificent Baku Crystal Hall, a 25,000 seat arena located near the National Flag Centre on a dramatic peninsula jutting out into the Bay of Baku.

Discover Baku

Shopping

Azerbaijan has been a popular choice for expatriates ever since large oil reserves were found in the country. The influx of westerners resulted in the availability of branded products, which has increased in dramatic proportions since independence. Prices of these products are not very expensive, but one needs to be careful against fake brands. For any foreign tourist, the country's arts and crafts section holds the maximum attraction.

In various cities of Azerbaijan, there are streets that sell handcrafts, silk, and other artefacts local to the city.

Café culture, music and dining

Baku's café culture and social scene revolves around Baku's city Boulevard which features a six-kilometre promenade of shops, restaurants, cafes, clubs and family friendly fairground rides. Here visitors can enjoy al fresco dining and cocktails in bar terraces overlooking the Caspian Sea.

Live music is a feature of the energetic and eclectic nightlife in the city. Visitors can experience home-grown rock bands, the ever popular karaoke bars, Baku's unique jazz or some traditional mugam folk music.

Bars, clubs and discos are open till late in the morning, especially during weekends.

The city's excellent restaurants serve up an eclectic mix of international culinary styles ranging from five-star creations that will satisfy the most demanding gourmet to corner kebab shops for a taste of local flavour on the go.

Nine of the world's climate zones can be found in Azerbaijan. This provides lush fertile land which produces a great quantity of fresh herbs and vegetables which contribute to the high quality of the local food. Food forms a significant part of the culture in Azerbaijan and is deeply rooted in the history, tradition and values of the nation.

Azerbaijani Cuisine

The city's excellent restaurants serve up an eclectic mix of international culinary styles ranging from five-star creations that will satisfy the most demanding gourmet to corner kebab shops for a taste of local flavour on the go.

Aside from the wonderful variety of soups and kebabs, Azerbaijan's most distinctive dish is the plov, a saffron rice-based dish which is traditionally accompanied by a variety of herbs and fresh vegetables.

Theatre

The kind of life that Azerbaijani people lead, the festivals they celebrate, their traditions and outlook towards life has a great impact on the theatre of Azerbaijan. Traditional ceremonies, their dressing styles, dialogs, all form an integral part of the Azerbaijani theatrical experience. Dramatic clothes, masks, traditional dances, chorus songs and dance dramatise a typical Azerbaijani play.

The development of theatre has come a long way since Soviet rule to independent Azerbaijan. Theatre during Soviet rule represented the struggle of Azerbaijan's people for their independence along with contemporary, cultural and traditional formations. Theatre after Azerbaijan achieved independence has changed much, with present situations and topics affecting the content of the play. Theatre has started touring in foreign countries preserving and spreading their rich culture and tradition as well as the life of the Azerbaijani people.

Nightlife

Although it is not known for its nightlife, visitors to Baku can enjoy a host of lively bars and clubs to have some fun at night. Food and drinks are reasonably priced. Most nightclubs have sprung up in the last decade or so after the influx of oil industry expatriates. Bars, clubs and discos are open till late in the morning, especially during weekends.

Museums and Exhibitions

Azerbaijan has a long and rich history of culture, tradition and struggle for independence. A variety of interesting exhibitions can be found throughout the city.

Azerbaijan, the land of fire

Azerbaijan is often referred to as the Land of Fire, since ancient religions based on fire-worship originated here. One of the first names for Azerbaijan was Aturpatakan, translating to “a place where sacred fire is preserved”.

Land of Fire originates from the sight of gas igniting on escaping from the ground, creating the effect of a burning hillside, at several sites in the Absheron peninsula, in the South Caucasus.

The South Caucasus is considered one of the first regions where fire was used. Nowadays there are 12 such fires throughout the Republic.

The most famous is the Yanar Dag, translated as the ‘Burning Mountain’, 27 km north of Baku city centre. It continuously vents flames of fire all year round, a process that has been going for around 1,000 years. Natural gas vents on the sides of the mountain ensure that the flame remains lit in wet weather.

Useful information

Banks and credit cards

There are a multitude of ATM machines around the city in Baku, most of which accept international debit and credit cards. Depending on your account-holding bank, there may be limits on the amount of currency you are able to withdraw in one day. The withdrawal limit from most machines in the city is 500 New Manat (AZN) in one transaction. Larger bank branches are open Mondays to Saturdays, but closed

on Sundays. Smaller branches are closed on Saturdays and Sundays. International credit and debit cards are accepted in most restaurants and larger shops.

Currency

The currency in Azerbaijan is the Azerbaijan New Manat (AZN). One hundred qepik equals one Manat, and Manat notes come in 1, 5, 10, 20, 50 and 100 denominations.

It is not possible to exchange currency into Manat in countries other than Azerbaijan so visitors will need to use the foreign exchange desk at the arrivals hall at the airport or withdraw from ATMs around the city.

Electricity

Standard electrical power in Azerbaijan is 220v. Electrical equipment and appliances use the standard European 220-240v two-pin plug.

Gratuities and tipping

Tipping is not expected across Azerbaijan but is commonplace in Baku. Occasionally a service charge is included on the bill, particularly in more established hotels and restaurants. Like any other place in the world, tipping for above-average service will be appreciated.

Smoking

European Games venue except for designated smoking areas.

Taxes (VAT)

VAT in Azerbaijan is similar to that in most European VAT systems, with tax levied on the supply of most goods and services and on the import of goods. VAT payers are entitled to recover the amount of VAT paid on purchases (input VAT) that exceeds the VAT received from their taxable supplies (output VAT).

The country code for Azerbaijan is 994 and the city code for Baku is 012. The city code for Mingachevir is 2427. The international exit code for calling out of Azerbaijan is 00 and must be dialled before the relevant country code and telephone number.

Azerbaijani mobile phone numbers have 10 digits and most mobile numbers start with 050 or 051. All 10 digits must be dialled for calls within Azerbaijan. For example: 050-123-XXXX.

When calling from outside Azerbaijan, the country code then number minus the zero should be dialled. For example: +994-50-123-XXXX.
