INTRODUCTION

The Technical Regulations include Regulations for the following disciplines:

- Artistic Gymnastics
- Rhythmic Gymnastics
- Trampoline Gymnastics
- Acrobatic Gymnastics
- Aerobic Gymnastics
- Parkour

Regulations for Gymnastics for All are in a separate document called “Gymnastics for All Manual”.

The Technical Regulations shall conform with the Statutes of the FIG. Consequently, if any unforeseen circumstances should arise, where any TR’s provision is at variance with the intent of any article of the Statutes, the intent and interpretation of the said article shall prevail and the said provision shall be duly amended.

These Regulations are arranged in sections to provide for specific areas of technical organisation and control. As it is not always possible to deal exclusively with the various subject matters under separate headings, it has been necessary to make cross-references whenever the circumstances so require. Cross-references may also be made to the Statutes, the Codes of Points and other approved documents.

Where decisions are made related to events in the Regulations, the following order of priority is observed:

- Olympic Games
- Youth Olympic Games
- The World Games
- World Championships
- Junior World Championships
- World Cup / World Challenge Cup competitions
- FIG exhibitions or galas
- Continental Championships
- Regional Games
- Competitions between National Federations
- International Tournaments and Competitions
- Exhibitions and Other non-competitive events

The structure, functions and formation of the FIG Technical Committees (TC) are set out in the Statutes as well as in these Regulations.

The programme and starting order are based on the FIG TR.

According to this provision, Continental Unions, may determine other details which may serve to develop all disciplines on their continent. These include questions about the competitions programmes, the system of running the competitions and the gymnasts/athletes' participation rights. Six (6) months before the competitions, all details shall be communicated to the FIG Office.

Continental championships / games are under the direct responsibility of the Continental Union concerned.

Art. 3.2 Continental / Regional Games

The FIG is entitled to send delegates to such events (representatives of the EC and/or Technical Delegates). These representatives are authorised to supervise compliance with FIG rules and may intervene where necessary to ensure their proper application..

Where such a competition includes an Olympic qualification event, the FIG shall appoint a Technical Delegate who shall be responsible for the competition phase relating to the Olympic qualification.

Art. 3.4 Competitions between Federations - International Tournaments and Competitions

Modifications may be allowed to accommodate the particular needs of the competitions following information from the hosting NF, with the consent of the FIG.

While the rights of participation, entry procedures and other organisational questions are by agreement between the participating NFs, all such international events, arranged by NFs, are to be brought to the attention of the FIG.

In addition to the international competitions, the international tournaments and events for all disciplines and categories constitute another form of international competition. They must be

organised by taking into account the present Regulations and they must likewise be brought to the attention of the FIG.

The programme and operating procedures are decided by the organising NF but based on the provisions of the FIG TR.

The **Definitive Registration** must be duly submitted online at least three (3) months before the start of the Competition.

Depending on the Competition type, in the Definitive Registration it is possible to submit other numbers than in the Provisional Registration.

Depending on the Competition type, if a NF entered the Provisional Registration, but missed the Definitive Registration deadline, a late Definitive Registration will be accepted if the Registration is duly submitted online before the drawing of lots and if the NF pays a penalty fee.

In the case of none or partial participation, the entry fees will not be reimbursed.

For ART:
If a NF confirmed its qualified team and the team is not participating at all, the NF has to pay a fine fixed by the Council. No fine will be applied in case of illness or injury certified by a medical doctor.

If a NF confirmed its qualified team and the team is participating with individual gymnasts only, no fine will have to be paid by the NF.

Art. 4.2 Entry procedures for the OG, YOG and TWG

The NFs concerned are notified by the FIG office of the entry procedure.

Art. 4.3 Procedure for the Gymnasts/Athletes' Draw of Lots

In those cases where it is necessary to make a drawing of lots in advance of a Competition (i.e. excluding the draws which take place during the course of a Competition) the following procedure will be followed:

1. The draw will take place within two (2) weeks after the deadline of the Definitive entry for the WCH, JWCH, WAGC and WYC, or as mutually agreed between the FIG and the LOC.
2. The NFs will be informed by the FIG at least one (1) month before of the time and place of the draw and they will be entitled to be present at the draw.
3. The Media will be informed and allowed to send representatives and the local authority, in whose area the draw will be held, will be invited to send representatives.
4. The lots shall be drawn by a “neutral” person manually or by computer.
5. The draw will decide the order in which the lot for each team or gymnast/athlete (including groups and units) will perform and determine the order in which the team, group, gymnast/athlete or unit start to compete.
6. For RG and AER, for the health and safety of gymnasts, FIG has accepted that gymnasts competing in multiple finals (also Qualifications for AER) require ten (10) minutes to recover before competing again.

   The draw is done in advance and therefore may not allow for this recovery period. Rather than measuring in minutes this recovery period, it has been translated to be equal to four (4) competition performances. This also includes the judging time.

   In RG and AER Gymnastics the draw will be adjusted according to this principle. If a gymnast or group competes 7th in one rotation and is drawn in positions 1-3 in the next rotation the new starting position will become 4th. If a gymnast or group competes last in a rotation and is drawn in positions 1-4 in the next rotation the new starting position will be 5th.

   This adjustment, if necessary, will be made by the President of the TC concerned or his/her representative once the qualifying gymnasts/groups have been informed and a new start list will be produced.

   This principle applies for all following rotations and also during other final competitions.
7. In TRA, for health and safety reasons, gymnasts competing in more than one discipline (TRA, TUM and DMT) require one competition group to prepare their participation in the next discipline.

   The draw is done in advance and therefore may not allow for this preparation period.

   This adjustment, if necessary, will be made by the President of the TC concerned or his/her representative.

Gymnasts 1, 2, 3, 4 do their “touch warm-up” and compete in the first half of the rotation

Gymnasts 5, 6, 7, 8 do their “touch warm-up” and compete in the second half of the rotation

In case of an odd number of finalists, the group competing in the first half of the rotation will have a smaller number of gymnasts than in the second half.

For the Mixed Team Final, the gymnasts perform their “touch warm-up” as one group for each Round and before each Rotation

The warm-up hall must be located at a convenient distance from the Competition hall, and recommended on the same level, and should be reached easily in due time. The concerned TC President must control the distance between the warm-up hall and the competition hall, and approve the warm-up conditions.

b) Rhythmic Gymnastics

There is no warm-up in the competition hall prior to the competition. Warm-up is organized in the warm-up hall which must be adjacent to the competition hall. Only in exceptional circumstances will warm-up be allowed in the competition arena by the TC President.

c) Trampoline Gymnastics

Warming up on the competition equipment during the actual competition may be eliminated for the Finals if a) equivalent equipment is provided in an adjacent hall and b) a 60 minutes general warm-up on the field of play is scheduled before Finals start.

Tumbling and Double Mini-Trampoline

Immediately prior to the Qualifying Round and Finals exercises all competitors will be allowed as many warm-up passes as competition exercises will perform (one or two, depending on the competition phase). This may be eliminated for the Finals if a) equivalent equipment is provided in an adjacent hall, and b) a 60 minutes general warm-up on the field of play is scheduled before Finals start.

d) Acrobatic Gymnastics

There is no warm-up in the competition hall prior to the competition. Warm-up is organized in the warm-up hall which must be adjacent to the competition hall. Only in exceptional circumstances will warm-up be allowed in the competition arena by the TC President.

Podium training of three (3) minutes per routine must be planned in the day(s) preceding the competition.

f) Parkour

The athletes are given the opportunity to warm-up and possibly touch warm-up in groups on the course.

The TC proposes in principle the judges for the OG and the YOG based on selection procedures (such as, but not limited to, the Judges' Evaluation Programme results performed during the cycle, as well as unified and objective criteria) and these selection procedures are submitted to the EC for approval.

There have to be two reserve judges for each MAG, WAG, TRA and RG. The reserve judges must be min. cat. 2.

Art. 7.10.2 The World Games

a) Trampoline Gymnastics

Each NF taking part must present one or two qualified judges (cat. 1, 2 or 3) in good standing, but must present a minimum of one (1) judge.

The judges are designated in the same manner as for the WCH (see Art. 7.10.3 c). If there is an insufficient number of judges, the TRA TC decides the process for designating the necessary number of judges.

b) Acrobatic Gymnastics

Each NF taking part must present one or two qualified judges (cat. 1, 2 or 3) in good standing, but must present a minimum of one (1) judge.

Art. 7.10.3 World Championships

If a D-judge is drawn, only one E-judge can be assigned. The total number of judges per NF may not exceed 2.

Federations entering individuals have the right to present one qualified E- judge, regardless if a D-judge is drawn.

The selection of judges for Qualifications and the All-Around Finals is made as follows:

- The D1 and D2 judges are considered as FIG judges, but the name of their NF must be used.
- The E1 to E7 judges are drawn by NF at the event prior to the competition from among those NFs that have cat. 1, 2 or 3 judges present at the competition. A new draw is conducted for each competition session but gives priority to those NFs that have not placed a judge in previous session of the competition.

Should there be an insufficient number of judges, the drawing of lots continues on the same basis but using the names of the NFs' second judges (two judges from the same NF cannot be placed in the same panel).

NFs whose two (2) judges are called upon to judge may decide in which competitions they will be utilised.

For the E-Panel in Team Finals and Mixed Team Final, only Judges of NFs which do not have a team taking part may be called upon to judge. The selection of judges (Artistic and Execution and Difficulty (for JWCH and WYC)) is made by the drawing of lots prior to the judges' instructions.

Details of the draw are outlined in the Specific Judges' Rules.

For Finals, only judges from NFs without competitors or 1st reserve competitors will be placed into the draw for Execution and Artistry. If there are insufficient judges, the AER TC will decide the process for designating the necessary number of judges.

g) Parkour

Difficulty judges are nominated by the FIG. Execution judges are from the participating federations or neutral judges. No jury may have more than one (1) judge from the same NF.

Art. 7.10.4 Other Official FIG Competitions

See the respective rules decided by the EC (i.e. World Cup Rules).

Art. 7.11 Judges' Instructions before the WCH, JWCH, OG, YOG, TWG, World Cups, World Challenge Cups, WAGC, WYC and Multi-Sport Games

At the competitions above, a judges' instruction is organised in person or if needed virtually, under the direction of the TCs. The principal aim is to ensure an exact and uniform interpretation of the CoP and of the assessment tables.

All the judges are required to take part in this instruction and at subsequent briefings. If they do not take part, they are not allowed to judge.

All registered judges must study all the educational material specified by FIG, on the relevant online platforms. By being registered as a judge, the judge agrees that his/her participation in the educational programme will be monitored and that non-participation may lead to dismissal from judging.

The length of a judges' instruction should not exceed four (4) hours, including the information about the organisation and the running of the competitions.

During these instructions the TCs have the right to test the knowledge of the judges and to dismiss those who prove to be incompetent.

Art. 7.12. The Oath

Art. 7.12.1 The Judges' Oath

The following oath shall be delivered by a judge in person or virtually during the opening ceremony of the WCH and JWCH, and other important international events:

>
> *We shall perform our duties with integrity, objectivity, responsibility and mutual respect, while safeguarding the dignity and well-being of all athletes, in the true spirit of sportsmanship»*

Sporting justice, ethics and honesty are the basis of a fair judgment.

If a judge does not abide by his oath, he incurs the risk of being sanctioned as provided for by the Statutes and the Code of Discipline. The judge in question may be denounced to the GEF Disciplinary Commission by the TC. These provisions shall also be applicable to the elected members of the TCs and the Jury of Appeal who have not abided to their duty of neutrality, of respect and the application of the rules and the CoP.

The members of the FIG EC must respect and uphold the respect of the sporting ethics by assuring that all the gymnasts/athletes be judged fairly.

Art. 7.12.2 The Athletes' Oath

The following oath shall be delivered by a gymnast/athlete in person or virtually during the opening ceremony of the WCH and JWCH and other important international events. This Athletes' Oath must follow the "Judges' Oath".

> *"In the name of all gymnasts and athletes, I promise that we shall take part in these World Championships (or any other official FIG Event), respecting and abiding by the rules which govern them.*
>
> *We commit ourselves to a sport that is clean, fair and free from doping, drugs, abuse and discrimination, conducted in safe and respectful environments.*
>
> *We commit to uphold the values of integrity, mutual respect and responsibility, and to protect the physical and mental well-being of all athletes.*

We do this in the true spirit of sportsmanship, for the glory of sport and the honour of the gymnasts and athletes worldwide."

Art. 7.12.3. The Coaches' Oath

The following oath shall be delivered by a coach in person or virtually during the opening ceremony of the WCH and JWCH and other important international events. This Coaches' Oath must follow the "Athletes' Oath".

"In the name of all Coaches and other members of the athletes' entourage, I promise that we shall commit ourselves to ensuring that the spirit of sportsmanship, ethics and respect is fully adhered to and upheld in accordance with the fundamental principles of Olympism.

We commit ourselves to a sport that is clean, fair and free from doping, abuse and discrimination, and conducted in safe and respectful environments.

We shall commit ourselves to educating and supporting gymnasts and athletes in the principles of fair play, integrity and respect for all FIG Rules governing these World Championships (or any other official FIG Event), while protecting their physical and mental well-being."

Art. 7.13 Behaviour of Judges and Particular Requirements

Members of Juries are required to be acquainted with, and have in their possession, the CoP, the TR and the directions relating to the particular competitions.

They are required strictly to observe the instructions concerning dress code, seating arrangements, behaviour and other disciplinary and organisational matters provided for in the CoP and the General Judges' Rules.

Art. 7.14 Adaptation of Provisions for Judging at Competitions not Organised by FIG

Art. 7.14.1 General Remarks

Continental competitions, competitions between NFs and international tournaments must observe the foregoing provisions with respect to judging arrangements except as modified below:

Art. 7.14.1.1 Judges

Judges must comply with the requirements outlined in Art. 7.8, 7.10 to 7.12 , as well as the General and Specific Judges' Rules.

In the event of disciplinary measure, judges have the right to appeal to the FIG .

Art. 7.14.1.2 Judges' Instruction

Instruction courses, preceding international competitions, are part of the judges' education. They are conducted by persons appointed by the TC and the presence of all the judges taking part in the competition is required.

Discussions will be held on the assessment of the exercises on the basis of the CoP by taking into account the nature and circumstances under which the competition is held. Questions relating to the various apparatus (ART/RG) are clarified. In addition, problems relating to the organisation and conduct of the competition will be examined.

Art. 7.14.1.3 Composition of Juries

The assignment of the judges is based on an agreement made between the participating NFs and if one of them does not wish to present a judge, this must be stipulated in the agreement made by the participating NFs.

If it appears necessary, and financial means so allow, the number of neutral judges may be increased. In exceptional cases, arrangements are possible by mutual consent of the participating NFs.

Jury size is described in the General Judges' Rules.

For Parkour, juries at international competitions will comprise two groups of minimum 3 judges.

Art. 7.15 Expenses of Members of Juries

Particulars of the reimbursement of the expenses incurred by members of juries are set out in Art. 11.3.2 below.

ART. 8 SCORING

Art. 8.1 Methods of Determining Scores

The method of determining scores and evaluating exercises is set out in the CoP.

Art. 8.2 Tie-breaking Rules

The General tie-breaking rules defined for each discipline in their respective Section must be applied to all competitions in groups 1 to 3 listed in the FIG Calendar, they are recommended for competitions in group 4.

Art. 8.3 Score Sheets

The complete detailed results of every international event must be sent to the FIG Office by the organising federation in accordance with the FIG requirements.

The results must be signed by the Chair of Judges' Panels or the President of the Superior Jury.

Art. 8.4 Validity of Scores

In cases where the scores shown on the public electronic scoreboard differ from those officially entered in the computer by the judge, the scores registered on the judge's electronic command desk prevails.

Art. 8.5 Inquiries for Scores

In competitions organised or sanctioned by FIG, inquiries for scores may be submitted to the President of the Superior Jury (or, if applicable, the Technical Delegate), in line with this article.

Art. 8.5.1 Types of Inquiries

In all disciplines, only the Difficulty Score (D-score) may be subject to an Inquiry.

For Rhythmic Gymnastics, the D-score is split into Difficulty Body (DB) and Difficulty Apparatus (DA). These sub-groups are subject to separate Inquiries (either DB and DA, or only DB or DA). If both DB and DA from the same routine are inquired, DB will be considered the first inquiry, and DA the second.

Inquiries cannot be withdrawn once submitted.

Art. 8.5.2 NF Authorised Representative

Only the designated NF Authorised Representative (a coach or delegation member, but under no circumstances a judge) for the specific gymnast(s), group, or unit may submit inquiries. They must be present in the Inquiry Area on the field of play.

By way of exception, an athlete may submit an inquiry on their own behalf. In such cases, the submission of the inquiry by the athlete shall be deemed to have been authorised by their NF.

An NF is not permitted to submit inquiries on behalf of gymnasts, groups, or units from other NFs. Additionally, challenges to decisions resulting from inquiries are prohibited.

Art. 8.5.3 Inquiry Officer

The Inquiry Officer must be a judge from the organising NF, or, if not possible, from a participating NF. They must hold at least the highest national qualification, but preferably a FIG international brevet judge. They must have a working knowledge of English.

The Inquiry Officer will receive instructions from the President of the Superior Jury (or the Technical Delegate) and will oversee the inquiry process, including confirming the identity of the NF Authorised Representative.

The Inquiry Officer may offer guidance to the NF Authorised Representative in submitting inquiries. However, the NF Authorised Representative remains fully and solely responsible for the proper and timely submission of inquiries in accordance with the provisions of this Article.

Art. 8.5.4 Submission of an Inquiry

If an electronic device is available, inquiries are submitted through the device by selecting the relevant gymnast, group or unit's name within the time limit (see 8.5.5).

If no electronic device is available, the NF Authorised Representative submits a completed official inquiry form to the Inquiry Officer, who records the time of receipt.

Art. 8.5.5 Inquiry Deadlines

Electronic Device: Inquiries must be submitted within two minutes after the score is displayed. The device will automatically prevent late submissions. In case of a device malfunction, the Inquiry Officer shall use best efforts to manually establish and record the timely submission, if possible, using an official inquiry form.

Official Inquiry Form: Where no device is available, inquiries must be submitted using the official inquiry form to the Inquiry Officer:

- before the score for the next gymnast, group or unit is displayed or,
- for the last gymnast, group or unit in a rotation, within two minutes after the score is displayed. The Inquiry Officer will verify if the inquiry was submitted within the deadline and record this on the official inquiry form.

Art. 8.5.6 Inquiry Rejection

Late or incorrectly submitted inquiries will be rejected by the President of the Superior Jury (or, if applicable, the Technical Delegate). The rejection must be recorded in the Electronic Device or on the Official Inquiry Form.

The decision not to accept an inquiry—whether due to it being filed late or not following the correct procedure—is final and cannot be challenged.

Art. 8.5.7 Multiple Inquiries

If multiple inquiries are submitted simultaneously, the first recorded inquiry's submission time will apply to all inquiries submitted on time.

The Inquiry Officer will, if needed, either unlock the electronic system for the NF Authorised Representatives to submit the inquiry in the device or record the submission time on the official inquiry form.

Art. 8.5.8 Inquiry Review Process

Timely and properly submitted inquiries will be reviewed by the President of the Superior Jury (or, if applicable, the Technical Delegate) using official competition footage only.

The decision will be made as quickly as possible, except for Apparatus Finals in ART and RG as well as for Finals for all other disciplines, where the inquiry must be resolved before the next gymnast, group, or unit's score is displayed.

The score may be increased, reduced, or remain unchanged after the inquiry review.

Decisions on inquiries are final field-of-play decisions and cannot be challenged internally or externally, including appeals to the Court of Arbitration for Sport (CAS), which has no jurisdiction over any challenge. This rule overrides any prior or future provisions granting CAS broader jurisdiction.

Art. 8.5.9 Inquiry Costs

The cost per inquiry is CHF 300 for the first, CHF 500 for the second, and CHF 1,000 for each subsequent inquiry throughout the entire duration of the competition (and not starting from "1" again at each competition phase).

If the Difficulty score is increased, the fee is waived; if it remains unchanged or is reduced, the fee is charged to the NF and transferred to the FIG Foundation for Solidarity.

Inquiry costs will be invoiced to the NFs by the FIG after the competition. No payment will be accepted on site.

At events without a FIG Technical Delegate, inquiry costs will be invoiced by the LOC and forwarded to the region's governing body if required by local regulations.

Art. 8.5.10 Final Ranking

Rankings are considered final once all inquiries have been processed and the results are confirmed and signed by the President of the Superior Jury, CJP or Technical Delegate.

Art. 8.6 Requests to revise Time or Line Deductions or Bonuses

Requests to revise Time or Line deductions or Bonuses, as allowed by the Code of Points for certain disciplines, are treated separately from inquiries and do not incur any cost. However, such requests must comply with the same principles, procedures, and deadlines specified in this article for inquiries. Requests to revise penalties are not permitted.

Some specific designations are used to report invalid results.

Except in case of automatic qualification, in order to be eligible to participate in the Team and Individual WCH, the NFs must have participated at the qualifying Continental Championships or the qualifying Apparatus World Cup series in the year of the WCH concerned, and must have earned the quota places for Teams, All-Around gymnasts, Apparatus specialists, or Additional All-Around gymnasts in accordance with the provisions mentioned below. If needed, a competition other than the qualifying Continental Championships, can be chosen as the approved Continental Qualifying Event, but it must be approved by the FIG at least six (6) months before it takes place.

All Qualifying events must be concluded no later than the end of June in the year of the WCH concerned.

QUALIFYING CONTINENTAL CHAMPIONSHIPS (OR THE APPROVED CONTINENTAL QUALIFYING EVENT)

Teams Qualifications

Participation rights

Participation in the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event), will be open to all NFs in good standing of the respective continent and in accordance with the continent's specific participation rights.

Qualification Places

Team and Individual WCH organized 2 years prior to the OG:

Up to a maximum of 24 highest men's and women's NFs, based on the Team ranking results of the Qualifications from the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event), will qualify, in accordance with the Team quota places.

If, for any reasons:

- the Teams Qualification Places cannot be allocated through the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event), or
- the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) cannot be held by the end of June of that year,

then the last Continental Championships held before the WCH concerned in the respective Continent with Team participation will be used for qualification.

Team and Individual WCH organized 1 year prior to the OG:

The 8 highest men's and women's NFs based on the Team ranking results of the Qualifications from the WCH organized 2 years prior to the OG will automatically qualify. These eight (8) teams will count towards the Team quota places.

The remaining quota places will be allocated up to a maximum of 16 highest men's and women's NFs, based on the Team ranking results of the Qualifications from the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) in accordance with the Team quota places.

If, for any reasons, the WCH organized 2 years prior to the OG cannot be held, then up to a maximum of 24 highest men's and women's NFs, based on the Team ranking results of the Qualifications from the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event), will qualify, in accordance with the Team quota places.

Then, if, for any reasons,

- the (remaining) Teams Qualification Places cannot be allocated through the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event), or

QUALIFYING APPARATUS WORLD CUP SERIES

The qualifying Apparatus World Cup Series will consist of minimum three and maximum six Apparatus World Cup competitions.

Apparatus Specialists Qualifications

Participation rights

Participation in each event of the qualifying Apparatus World Cup Series in the year of the WCH concerned will be open to all NFs in good standing with a maximum of two gymnasts per NF per apparatus (for the maximum total number of gymnasts, see Accreditation Rules).

Qualification Places

The 8 highest ranked eligible gymnasts per apparatus (for a maximum of 48 men and a maximum of 32 women), based on the WCH Qualification World Cup Ranking list (hereinafter referred to as the "List of Qualified AS") in the year of the WCH concerned, will qualify by name with a maximum of two (2) gymnasts per NF per apparatus.

If, based on the List of Qualified AS, the maximum of 8 gymnasts per apparatus cannot be reached, the next eligible gymnast with the best rank on the apparatus concerned from all competitions of the World Cup Series will qualify (by keeping the provision of a maximum of two (2) gymnasts per NF per apparatus). In case of ties in rank, the gymnast with the highest score prevails.

The List of Qualified AS will be established as follows:

- World Cup Points towards the List of Qualified AS will be recalculated and assigned in accordance with the ranks allocated outlined in the Rules for the FIG Apparatus World Cup Series.
- If, for any reasons, the competition consists of Qualifications only with no Apparatus Finals, the World Cup Points towards the List of Qualified AS will be recalculated and assigned by taking into consideration the Qualifications, in accordance with the ranks allocated outlined in the Rules for the FIG Apparatus World Cup Series

- The four highest results per gymnast per apparatus will be taken into consideration, regardless of the number of competitions the gymnast(s) participated in.
- Only eligible gymnasts will be taken into account

In case of a tie in Ranks in the List of Qualified AS, the ties will be broken by respecting points 3 a) b) c) d) below.

Special Provision:

- Apparatus specialists may participate in the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) as Team gymnasts to possibly qualify their Team for the Team and Individual WCH. If their Team qualifies, these apparatus specialists will be removed from the List of Qualified AS and their unused quota places will be reallocated in accordance with the reallocation procedures.
- Apparatus specialists may participate in the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) as All-Around gymnasts to possibly qualify as All-Around gymnasts or Additional All-Around gymnasts for the Team and Individual WCH. If qualified as All-Around gymnasts or Additional All-Around gymnasts, these gymnasts will be removed from the List of Qualified AS and their unused quota places will be reallocated in accordance with the reallocation procedures.

If, for any reasons:

- the Apparatus specialists Qualification Places cannot be allocated through the qualifying Apparatus World Cup Series in the year of the WCH concerned, or
- the qualifying Apparatus World Cup Series cannot be held by the end of June in the year of the WCH concerned,

then the last Apparatus World Cup Series held before the WCH concerned will be used for qualification.

Maximum number of Individual Gymnasts without a Team

NFs without a Team may qualify a maximum of five (5) All-Around gymnasts and Apparatus specialists for Men and for Women. Should a NF qualify more than a maximum of five (5) All-Around gymnasts and Apparatus specialists for Men and Women, the following criteria, in order of priority, will determine which five (5) gymnasts earn the quota places:

1. The gymnast(s) who earned an All-Around quota place.
2. The highest ranked Apparatus specialists based on the List of Qualified AS
3. In case of a tie in ranks in the WCH Qualification Ranking List, the tie will be broken by respecting the following criteria, in order of priority, as follows:
    a. The ranks of the maximum 4 counting exercises will be added and the gymnast with the lowest total prevails. In case of a tie in the ranks to determine the 4 counting exercises, the exercises with the highest final scores prevail.
    b. The final scores of the maximum 4 counting exercises will be averaged and the gymnast with the highest average prevails
    c. The total E-scores of the maximum 4 counting exercises (maximum 8 scores for Vault) will be averaged and the gymnast with the highest average prevails
    d. The total D-scores of the maximum 4 counting exercises (maximum 8 scores for Vault) will be averaged and the gymnast with the highest average prevails

Confirmation Process for the Quota Places

For the Team and Individual WCH organized 1 year and 2 years prior to the OG:

The FIG will inform the respective NFs of their allocated Team quota places. Following receipt of the notification from the FIG, the NFs will in principle have 2 weeks maximum to confirm if they wish to use their Team quota place or not.

Should a NF not confirm its Team quota place, the next highest NF from the same Continent, based on the Team ranking results of the Qualifications:

- from the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) will qualify, or, if this is not possible:
- from the last Continental Championships held before the WCH concerned with Team participation will qualify
- The NF who declines its Team quota place will not receive any All-Around gymnast, Apparatus Specialist or Additional All-Around gymnast quota place.

Special Provision for the Team and Individual WCH organized 1 year prior to the OG:

Should a NF, with a team automatically qualified, not confirm its Team quota place, the next highest NF from the same Continent, based on the Team ranking results of the Qualifications:

- from the qualifying Continental Championships in the year of the WCH concerned (or the approved Continental qualifying event) will qualify, or, if this is not possible:
- from the last Continental Championships held before the WCH concerned with Team participation will qualify

The NF who declines its Team quota place will not receive any All-Around gymnast,Apparatus Specialist or Additional All-Around gymnast quota place.

Once all Team quota places are confirmed in a given Continent, the FIG will then inform the respective NFs of their allocated All-Around gymnasts quota places. Following receipt of the notification from the FIG, the NFs will in principle have 2 weeks maximum to confirm if they wish to use their All-Around gymnasts' quota place or not. The NF who declines an All-Around gymnast quota will not receive any Apparatus Specialist quota place for this gymnast.

Once all All-Around gymnasts' quota places are confirmed, the FIG will then inform the respective NFs of their allocated Apparatus Specialists quota places. Following receipt of the notification from the FIG, the NFs will in principle have 2 weeks maximum to confirm if they wish to use each of their Apparatus Specialists quota place or not.

Once all Team, All-Around gymnasts' and Apparatus Specialists quota places are confirmed, the FIG will then inform the respective NFs of their allocated Additional All-Around Gymnast quota place. Following receipt of the notification from the FIG, the NFs will in principle have 2 weeks maximum to confirm if they wish to use their Additional All-Around Gymnast quota place or not.

Art. 5.1.7 Formation of Groups and Starting Order

Art. 5.1.7.1 Qualifications

The distribution and starting orders of the groups of Teams, All-Around gymnasts, Apparatus specialists and Additional All-Around gymnasts are under the responsibility of the TCs (see also Section 1, Art. 4.3) through the conduction of a draw as follows:

- within 6 subdivisions of 6 apparatus each for men
- within 10 subdivisions of 4 apparatus each for women

This may vary however providing the approval of the FIG EC.

In case of no-show of Teams, All-Around gymnasts, Apparatus specialists or Additional All-Around gymnasts, the corresponding place determined by the draw for the starting order will remain empty in the concerned subdivision.

For each apparatus, the starting order of the gymnasts making up a Team is decided by the Head of Delegation or his representative. The starting order must be submitted by using the FIG online platform as follows:

- for the Teams competing on the first Qualifications' day: at the latest 24 hours prior to the start of the first subdivision on the first Qualifications' day.
- for the Teams competing on the second Qualifications' day: at the latest 24 hours prior to the start of the first subdivision on the second Qualifications' day.

If a NF does not respect this deadline, the starting order of the gymnasts from its Team will be determined based on the gymnasts' bib number.

For Groups with All-Around gymnasts and/or Additional All-Around gymnast, the starting order of the NF on the first apparatus is determined by the draw results. For NFs with more than one All-Around gymnast in a Group, the starting order of the gymnasts on the first apparatus only is decided by the Head of Delegation or his representative. - for the All-Around gymnasts and Additional All-Around gymnast competing on the first Qualifications' day: at the latest 24 hours prior to the start of the first subdivision on the first Qualifications' day
- for the All-Around gymnasts and Additional All-Around gymnast competing on the second Qualifications' day: at the latest 24 hours prior to the start of the first subdivision on the second Qualifications' day

The Head of Delegation or his representative must confirm at that time if the All-Around gymnasts or Additional All-Around gymnasts compete on all apparatus or not.

For Groups with Apparatus specialists, the starting order is determined by the draw results and by name for each apparatus. If qualified to compete on consecutive apparatus, a gymnast competing last on one apparatus will not be drawn to compete first or second on the following apparatus. The Head of Delegation or his representative must confirm, by using the FIG online platform, if the Apparatus specialists compete on all qualified apparatus or not at the latest 24 hours prior to the start of the first subdivision on the day the Apparatus specialists are drawn to compete for Qualifications.

Art. 5.1.7.4 Apparatus Finals

The starting order on each apparatus is determined by the draw results.

All the finalists must attend the gymnasts' presentation at the start of each Apparatus Final.

"Touch" Warm-up on the podium will be allowed at the beginning of each apparatus.

The Head of Delegation or his representative must submit the Vault numbers by using the FIG online platform 24 hours prior to the start of the Apparatus Final at the latest.

Art. 5.1.7.5 Mixed Team Final

The results of the Mixed Team Final determine the Mixed Team World Champion. The results of the Qualifications are not carried forward to the Mixed Team Final and start from zero (0). The eight (8) Mixed Teams having obtained the highest total combined scores in Qualifications take part in this competition.

All the finalists must attend the gymnasts' presentation at the start of the Mixed Team Final.

For all Rounds, the starting order for the athletes making up a Mixed Team, including the reserve Mixed Team, and the apparatus selected must be submitted by the Head of Delegation/Representative by using the FIG online platform twenty-four (24) hours prior to the start of the Mixed Team Final at the latest. For each round, an allocation algorithm may be applied to ensure an equitable distribution of gymnasts across the two (2) rotations and, whenever possible, to prevent gymnasts from competing consecutively on the same apparatus or from having two (2) athletes compete simultaneously on Floor Exercise

In each of the three (3) Rounds, NFs must select any combination of two (2) different men and two (2) different women from a maximum of three (3) men and three (3) women, selected from among all accredited gymnasts, including the reserve (if any). For men, Floor Exercise, Parallel Bars, and Horizontal Bar must each be used exactly two (2) times across all Rounds. For women, Uneven Bars, Balance Beam, and Floor Exercise must each be used exactly two (2) times across all Rounds.

The same gymnast cannot perform more than once on the same apparatus.

Round #1: Each Mixed Team must select two (2) apparatus for the men and two (2) apparatus for the women, which must be different (athletes of the same gender cannot select the same apparatus). FX must be selected by no more than one (1) male athlete and one (1) female athlete from the same NF. The six (6) Mixed Teams having obtained the highest total combined Final score take part in Round #2

Men and women athletes will be divided into two (2) rotations. All athletes will perform their "touch" warm-up at the same time. They will then compete as per the working order below.

Athletes may leave the Competition Hall to return to the Warm-up Hall if their position in the starting order allows. However, they are fully responsible for returning in time to compete.

The provision that no apparatus for men and women can be used more than two (2) times across all Rounds must be respected. FX must be selected by no more than one (1) male athlete and one (1) female athlete from the same NF. The four (4) Mixed Teams having obtained the highest total combined Final score take part in the Final Medal Round

Men's and women's athletes will be divided into two (2) rotations. All athletes will perform their "touch" warm-up at the same time. They will then compete as per the working order below.

Speed Semi-Finals (max. 3 per NF)

Knock-out competition format

The top athletes from the ranking list of the Qualification participate in the Semi-Finals.

In case of a tie at any place, the tie-breaking rules set out in art. 4.1 applies
