## Appendix I

# APPENDIX TO THE WORLD CHALLENGE CUP RULES

## Draw Procedure- Qualifications for MAG and WAG

Principles of the draw:

Gymnasts from the same federation will train, have podium training and compete together

Gymnasts should receive adequate time between competition rotations with the avoidance of two apparatus during the same rotation

Gymnasts from the same federation can effectively have a coach with them at all times in training and competition to improve safety

*Note: It is impossible for the draw of an apparatus World Challenge Cup to consider all gymnasts competing in Olympic order*

The Draw Chart:

Set-up a draw chart after determining how many and which apparatus will be run in each subdivision

The maximum number of gymnasts for one apparatus in one subdivision: approximately MAG 48 WAG 32

The draw chart #1 should be divided into minimum three phases for MAG and minimum two phases for WAG on each apparatus

Start with 25 rows in each phase for MAG and 20 rows in each phase for WAG, more if necessary

Excess rows will be deleted later

No numbers need to be assigned to the rows, only separation by phase

Columns designate the apparatus being drawn in each subdivision

The rows for each column will show gymnast name and federation

Draw Preparation:

To prepare bowl #1 with the phase number (ex. 1, 2, and/or 3 for MAG and 1 and/or 2 for WAG)

To prepare bowl #2 with the name or pictogram of each apparatus for each subdivision

To prepare bowl #3 with the names of the federations competing in each subdivision

The Draw:

Begin the draw with the first subdivision

Remove any federation not registered to compete in the subdivision to be drawn

Draw alternately from bowl #1, from bowl #2, and bowl #3 for each planned subdivision until all federations are assigned their starting phase and apparatus

Place the name of the federation in the first available row starting from the top of the chart on the drawn apparatus; place the federation name two times if they have two registered gymnasts

If a federation is drawn to an apparatus where they have no gymnasts, go to the next apparatus in Olympic order to the next available row. If it is the last apparatus (Olympic order), go back to the first apparatus in the subdivision.

After a federation is placed in the row of an apparatus, move to the next apparatus and the next phase in Olympic order, then back to 1<sup>st</sup> apparatus until the federation has their name listed (1 or 2 times) on each apparatus in different phases for the gymnasts registered

Once the draw is complete for the subdivision showing federation names (1 or 2) for gymnasts registered on each apparatus in the subdivision, eliminate all extra cells for each apparatus and any recognition of the phases

Add the full name of each gymnast to the draw sheet in each row with their federation name

Add the "hors concours" gymnast (Challenge Cups only) to the first position of each apparatus in the subdivision

Number all the gymnasts on each apparatus in the subdivision

The final competition order for each apparatus in the subdivision is now complete. There will be changes at the Orientation Meeting based on withdrawals and change of gymnast names on specific apparatus.

After the Orientation Meeting the order on each apparatus must be presented and respected, but the TD in conjunction with the LOC has right to later modify the start and size of each specific rotation to prevent conflicts with gymnasts from the same federation on multiple apparatus at the same time.

Repeat procedure for next subdivision

**Note:** *During competition, warm-up on the podium after every 4-5 gymnasts, controlled for all apparatus simultaneously. These rotations of 4-5 gymnasts should be designated after all withdrawals and changes are complete. The competition will be controlled on this basis with no consideration for the original draw phases.*
