

## FIG International Gymnastics Federation

### COVID-19

#### Additional information on pandemic coverage

##### **Preamble**

**COVID-19** conditions are normally covered for all insured classes.

Treatment of these conditions is covered for both outpatient and inpatient treatment.

A possible repatriation to the country of residence, required by the patient's condition, is also covered.

##### **Preconditions for the coverage of medical treatment costs**

The coverage of medical treatment costs in case of quarantine is only covered if

1. the insured has undergone the usual tests on departure from the trip and, if required, on arrival in the country of the meeting or competition and
2. both tests were negative.

The costs of testing are not reimbursed.

##### **Reminder of the circle of insured persons**

Gymnasts with a FIG licence, Judges and Education Experts

##### **Details of insured benefits**

###### **COVID-19**

The costs of medical treatment (In- and Outpatient) outside the insured's country of residence, including analyses and medicines ordered by the medical profession.

The costs of repatriation to the country of residence.

Provided that the illness first occurred during a trip on behalf of the FIG, costs in the country of residence that are not sufficiently covered by local insurance (private, sports, social or professional) are covered, but limited in time (365 days) and amount (max. CHF 200,000). If the insured does not have local insurance, IMSSA's supplementary cover will lapse.

### **Claims & Documentation**

All claims must be submitted to IMSSA via the online channel at [www.imssa.org](http://www.imssa.org) within 7 working days.

#### **Exception:**

In the event of a **medical emergency**, requests for assistance must be made **immediately** by telephone on **+41 26 921 8001**.
